PROFILE

Master of Artificial Intelligence student at RMIT University with industry experience building production React and TypeScript interfaces at KreditBee. Published author of three peer-reviewed conference papers in deep learning, NLP and computer vision, including IEEE ICCV 2025. Seeking AI/ML engineering internships and graduate roles where I can build and ship machine-learning systems end to end.

EDUCATION

RMIT University

Master of Artificial Intelligence

GPA: 3.7 / 4.0 (after Semester 1)

- ACS-accredited postgraduate program, ranked #7 in Australia for Data Science & AI (QS 2026).
- Coursework in machine learning, deep learning and AI system design, with a focus on ethical, responsible AI.

03/2026 – Present
Melbourne, Australia

Amrita Vishwa Vidyapeetham, Bengaluru

B. Tech.

CGPA - 7.58

- Senior Executive at ECCF Club Amrita
- Volunteered in hosting Electronica hackathon in campus
- 2nd Prize in Inter-Department Quiz Competition

06/2021 – 06/2025
Bengaluru, India

Seshadripuram Independent Pre-University College, Bengaluru

Higher Secondary Education - PCMC

Percentage - 83.83

07/2019 – 02/2021
Bengaluru, India

The Indian School, Bahrain

Secondary Education

Percentage - 81.8

03/2018 – 04/2019
Isa Town, Bahrain

WORK EXPERIENCE

KreditBee

Frontend Developer

- Tools/ Techniques used: HTML, CSS, JavaScript, React, TypeScript, Redux, AWS
- Outcome: Worked on designing and developing interactive and responsive user interfaces. Collaborated with the development team to enhance UI/UX, optimize performance, and ensure seamless user experiences.

03/2025 – 12/2025
Bengaluru, India

Atyaf eSolutions W. L. L.

Software Developer - Intern

- Tools/ Techniques used: HTML, CSS, JavaScript, Bootstrap
- Outcome: Demonstrated versatility by actively participating in front-end, and full-stack development phases, contributing to increase in overall project efficiency and completion ahead of schedule.

06/2024 – 07/2024
Muharraq, Bahrain

PROJECTS

International English Speech Accent Recognition System with Real-Time Web Integration

Python, Deep Learning, Speech Recognition

- Developed a deep learning-based International English Accent Recognition System using ECAPA-TDNN embeddings and an MLP classifier, with data balancing techniques, and deployed it as a real-time web app for multilingual accessibility in language learning and customer service.

02/2025 – 05/2025

Indian English Speech Accent Recognition System  <i>Python, Machine Learning, Deep Learning</i> - Designed a regional accent detection system using Indic TTS dataset, MFCC features, and models like SVM, Random Forest, CNN, and LSTM. - Achieved high performance across 16 accents with stratified 10-fold cross-validation.	07/2024 – 11/2024
AgriTalk: Revolutionizing Farming with a Multilingual Chatbot  <i>Speech Processing, Python, ChatBot</i> Developed a multilingual chatbot for agricultural queries using NLP, deep learning, IndicTrans2 for translation, and text-to-speech, supporting multiple Indian languages to enhance accessibility and efficiency.	09/2024 – 11/2024
AI-Driven Attendance Tracking with Haar Cascade and ResNet  <i>Image Processing, Face Recognition, Python</i> Engineered a Python-based attendance system incorporating advanced facial recognition algorithms, ensuring precise identification; enhanced reliability for various applications and decreased human error in attendance logging.	03/2024 – 05/2024
Vehicle Accident Detection & Tracking System  <i>Arduino, IoT</i> Developed a sophisticated system to quickly detect accidents and track vehicles in real-time for enhanced safety and security.	10/2023 – 12/2023

TECHNICAL SKILLS AND INTERESTS

Technical Skills

React, TypeScript, C, C++, HTML, CSS, JavaScript, Python

Tools & Technologies Known/Used

AutoCad, Proteus, MATLAB, KEIL IDE, Linux, Multisim, Cisco Packet Tracer

SOFT SKILLS & INTERESTS

Soft Skills

Time management, Good communication, Team Work, Problem-Solving, Attention to Detail, Adaptability

Languages Known

English, Malayalam, Hindi, Tamil, Kannada

Hobbies

Reading, Trekking, Playing Badminton, Watching Tech Related News

PUBLICATIONS

Speech Embedding-Based Classification of Global English Accents Using ECAPA-TDNN and LightHuBERT <i>16th International IEEE Conference on Computing, Communication and Networking Technologies</i> Presented a novel approach for recognizing 16 global English accents using ECAPA-TDNN and LightHuBERT embeddings with data imbalance handling techniques, achieving macro F1-scores above 0.80. Deployed as a real-time web application for accessibility in multilingual systems.	08/07/2025
AgriTalk: Revolutionizing Farming with a Multilingual Chatbot  <i>8th International Conference on Electronics, Materials Engineering & Nano-Technology</i> Developed a multilingual chatbot for agricultural queries using NLP, deep learning, IndicTrans2 for translation, and text-to-speech, supporting multiple Indian languages to enhance accessibility and efficiency.	02/02/2025
AI-Driven Attendance Tracking with Haar Cascade and ResNet  <i>International Conference on Machine Learning and Data Engineering</i> Developed an automated attendance system using ResNet-50 and Haar Cascade for facial recognition achieving a accuracy of 91.6%, with SQLite database integration for efficient record storage.	28/11/2024

COURSES

CCNA <i>Cisco Networking Academy</i>	present
AWS Academy Cloud Foundations [58809] <i>Amazon Web Services</i>	present
Certificate of Energy Literacy <i>Energy Swaraj Foundation</i>	02/2023 – 03/2023
